Registration for the first time

Before using Business Internet Banking, all users are required to perform a first-time registration with HSBC. To register, you should have the following essentials in hand:

1. The mailer containing an activation PIN
2. The Security Device
3. The authentication code sent via SMS (if you have registered a mobile phone number)

Registration can be made by going to www.hsbc.com.hk/registerbib

The screenshot shows the HSBC Business Internet Banking registration page. At the top, there is a navigation bar with links for Home, Personal, Commercial, Corporate, MPF, About HSBC, and Careers. Below this is a search bar and a list of services including Commercial, Commercial Accounts, Investments, Insurance, Cards and Payments, Loans and Finance, Doing Business Overseas, Trade Services, and Business Advice Centre. The main content area is titled 'Business Internet Banking' and includes a section for 'Registration with HSBC'. This section contains a list of requirements: 'Your start-up guide', 'Your Business Internet Banking user short name', 'Your alpha and numeric PINs', 'Your principal account number', and 'Your Security Device'. To the right of the requirements is a 'Next Steps' section with a red 'Proceed' button and the text 'Call us on 2748 8288'. A dashed line with a blue circle containing the number '1' points to the 'Proceed' button. Below the requirements is a 'System maintenance' notice stating that online registration will not be available from 3 am to 6 am on Sundays. At the bottom, there is a 'System requirements' section with details about internet connection, operating system, and browser. The footer contains links for Privacy and Security, Terms of Use, Hyperlink Policy, Sitemap, and Online Security, along with copyright information for The Hongkong and Shanghai Banking Corporation Limited.

1

Click 'Proceed' to start the registration.

2

Enter your security details.

You can find them on the PIN mailer.

If you have received the authentication code via SMS, click here to input. This authentication code is not applicable to customers who register for Mandatory Provident Fund service only.

Input the authentication code

Click 'Continue'.

3

Create your own username and password for logon to Business Internet Banking.

Select your security questions and provide your answers.

This will be used for the password reset service. (If you want to amend the questions and answers, you can always go to the select profile page, click 'Edit Profile' and change this information.)

Enter the serial number.

It is on the back of your Security Device.

Enter the security code.

The security code will be displayed on the screen of your Security Device after pressing the grey button on it.

Click 'Continue'.

>> Security tips:

1. We strongly recommend that you do not use easily identified words or numbers such as names, birthdays, phone numbers or ID card numbers, etc as your password.
2. Both primary and secondary users must exercise maximum caution to keep their usernames and passwords confidential to prevent unauthorised access to their Business Internet Banking services.
3. Ensure that your Security Device is always kept in your safe custody. If you lose your password or Security Device, or suspect any unusual account activity, you should call our 24-hour customer service hotline on (852) 2748 8288 immediately.

4

- Input your personal information.
- Click 'Continue'.

5

- Click 'Continue' to complete the registration.

Congratulations! You have completed the registration process and can now access Business Internet Banking.

>> Security tips:

1. Use a combination of upper and lower case letters and numbers for your password.
2. Change your internet banking password on a regular basis and never disclose it to anyone; remember, no one at HSBC will ever ask for it.
3. Install virus detection software and regularly update your virus definition.
4. Install a personal firewall that prevents hackers from accessing your computer, especially if you have to connect to the Internet for prolonged periods of time.
5. Do not leave your PC unattended. Use a physical lock, password protected screen savers and create a Windows password to limit unauthorised access. Know everyone who uses your computer.
6. Avoid opening emails that you are not expecting, especially from people you don't know, to protect your PC from the threat of email viruses.
7. Not to access their internet banking accounts through hyperlinks embedded in emails.
8. Avoid accessing Business Internet Banking from cyber cafes or shared computers.
9. Always monitor transactions posted to your account closely and check the date and time of you last visit to our Business Internet Banking, which is displayed on the welcome page. Call our 24-hour customer service hotline on (852) 2748 8288 if you suspect any unusual account activities or have password/Security Device problems.
